The Premium is paid in Cash annually, or may, if desired, be paid semi-annually, or quarterly, by adding interest to the deferred payments. The CASH principle adopted by this Company, secures to the parties for whose protection insurance may be effected the WHOLE of the benefits, without subjecting them to the heavy drawback of accumulated premium notes.
Persons may effect insurance upon their lives, or upon the lives of others. Married women can insure the lives of their husbands, for THEIR OWN BENEFIT and for the protection of their children.
Pamphlets explanatory of the principles of Life Insurance, and illustrative of its advantages, may be had, with form of application, and rates of premium, at the office of the Company, No. 35 Wall street, or from any of its Agents.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 10, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works, leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

(Late Butterfield, & Averell's.)
WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have therefore adopted the
ONE PRICE SYSTEM,
and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of the market. My assortment of CHOICE SEGARS are complete and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, Jan. 20th, '52.

First as to a little matter which troubles our friend of the *Free Democrat* very much, viz; the "marked slight" put upon a prominent free Soil Whig,—Mr. Donaldson of Fond du Lac,—by the Speaker, in not appointing him to head the committee which he had moved, to wait upon the Governor &c. No such thing was intended, but the reason for the non-appointment was one which imported quite the contrary.

You will notice that the Senate yesterday wrung the necks of all the "pretty chickens" hatched by the Assembly, in the shape of bills extending the time of collecting the taxes in certain towns. There is doubtless good reason for the action taken by the Assembly in pushing these bills through without delay, but the Senate thought that such hasty action upon them would set a bad precedent.

This morning, the Speaker announced the select committee on Banks. Petitions continue to come in for the enactment of a law similar to the Maine liquor law. I think it hardly possible that any such law can pass the Legislature, nor, under the present state of public sentiment, do I think it ought to pass.

The Lt. Gov. has appointed Senators Pinckney, Steward and Alban the Committee on the subject of the Northern Improvement. There is a good opportunity therefore for persons who are conversant with the delinquencies in that quarter, to develop them with the largest liberty. On the Compromise question, the Senate's committee is composed of four whigs and one free soiler, the Lt. Governor taking a very shrewd course in the matter. It may answer a good purpose to suit one side or the other, according to circumstances.

Mr. Lewis offered this morning in the Assembly, a joint resolution of welcome to Kossuth, nearly identical with that offered by Mr. Seward, in the U. S. Senate. The Assembly promptly passed the resolution, and sent it to the Senate, which latter body concurred at once, and it went to the Governor at 12 o'clock. No speeches were made for Buncombe, no patriotic tears let fall—no crocodile shower moistened the carpets of either House, but both bodies promptly passed the resolution and proceeded to the next order of business.

The House voted this morning to print the Message as follows; 1000 copies in English, in pamphlet—500 newspaper copies in German, from the Volksfreund—300 in Norwegian—200 in Dutch—and 500 in Welch—the papers not to charge more than 25 cents each copy. Some good things were said in the course of the debate, which was not lengthy. Mr. Utley recommended the case of his Welch constituents to the consideration of the Whig members, they having the good sense to vote that way generally. Mr. Weil, of Washington County, very pertinently suggested that, as a large portion of his constituents regarded a Whig Governor as they would a bear, or other savage animal, it would stand the Whigs in hand to let their German fellow-citizens read what Gov. Farwell had to say.

The question of apportionment came up this morning, on a joint resolution from the Senate to have a committee of three from each House.—Little progress was made in the morning, but in the afternoon the subject came up again. Mr. Cate, of Portage, made, and supported a motion to have the committee consist of one from each Senate District (19 in number.)

The resolution was passed, making the committee consist of this large number. The object is doubtless a laudable one, but the number is too large to be efficient, it is generally thought.

Mr. Graham, of our city, led off this afternoon with notice of a Banking Bill. They will come "thick as autumnal leaves in Vallombrosa"—I suppose. The House adjourned early.

The capitol building is giving way, solid as it appears to be. Besides the damage to the gallery the other day, it was found that the partition dividing the Assembly Hall from the lobby, had given out, and was threatening a crash. There must have been carpentry somewhere.

The members are getting fairly at work, and the "fault and glimpse of newness" is rapidly wearing away. On the one hand, there are few, if any, "unrough youths, that even now protest their first of manhood," and on the other, none whose "wine of life is drawn, and the mere lees is left to brag of." If, on one side, there are none who feel disposed to let business hurry through without consideration, there are few who "pen their speeches so excellently well, and take such pains to con them" that they must have their lengthy say on all subjects. All this argues well for the despatch of business. W. H. W.

A FLASH IN THE PAN.

The political majority in the Senate attempted to be quite severe upon the Governor's Message, in their distribution of its different topics to appriate committees, but were unexpectedly checkmated. The Committee of the Whole, among other references, ordered the following:

So much as refers to his "individual interest" and his "private and political friendship," or dislikes, to the committee on claims.

So much as relates to the "free navigation of the St. Lawrence," to the committee on foreign relations.

Mr. ALBAN pointed out the impropriety of the latter reference, inasmuch as there was no such standing committee in the Senate, and protested against making light of a question so important to the Agricultural and Commercial interests of Wisconsin. A faint attempt was made to defend the covert slant, but the "sober second thought" of the Senate promptly repudiated it. So too, as to the personal reflection designed in the first quoted reference, the whig Senators called the yeas and nays upon it, with the following result:

Yeas—Messrs. Bennett, Bowen, Conkey, Dean, Huebschmann, Reed, Sharpstein, Squires and Wright—9.

Nays—Messrs. Alban, Bugh, Palmer, Pinckney, Prentice, Stewart, Turner, Wakely and West—9.

The vote being a *tie*, Lt. Governor BURNS, with a proper sense of what was due to the dignity of the Senate, and to the Executive of the State gave the casting vote in the *negative*, thus rejecting the reference. We think the Senatorial jokers will try some other subject for their squibs the next time.

The Injunction against the Treasurer.

The *Wisconsin* has favored its readers and the public with sundry courteous and conclusive articles, relating to the injunction granted by Judge HUBBELL against Treasurer JANSSEN, upon the application of LEVI BLOSSOM, Esq.; Any one of them will serve as a fair sample of the whole, and so we quote the following from its yesterday's issue:—

The effect of Judge Hubbell's Injunction on the business of the State Treasury amounts to nothing, because no one regards so illegal a proceeding as of any account. Even the boys laugh at what they call "Hubbell's capers."

The "laughing," we suspect, has been all at the *Wisconsin's* expense; which cherishes "an ancient grudge" against Judge HUBBELL and seeks every opportunity to "feed it fat." In the matter in question, Judge HUBBELL acted, so far as yet appears, within the strict line of his duty, in granting an injunction upon a bill regularly filed, setting forth sufficient cause and not gainsayed by the opposite party. No doubt, should cause be shown, the injunction would be dissolved as readily as it was granted. The only *mooted* point, we believe, is as to the jurisdiction of the Court in the premises, and we are constrained to think Judge HUBBELL better authority on that point than the learned pundit of the *Wisconsin*.

"STILL HARPING, &c."—The *Free Democrat* of last evening has a couple of columns of editorial jeremiads about the organization of the Assembly, and the failure of the Free Soil Members to obtain what they considered their share of "the spoils." We would not willingly aggravate the disappointment of our neighbor by any unnecessary reflections, but one or two points in the article call for reply. It snubs the efficient and accommodating Telegraph operator at Madison, Mr. HOPKINS, for saying in his despatch to the Milwaukee Press that "the Free Soilers were in market" &c, and then turns upon us in this wise:—

The *Sentinel* now endorses the charge editorially, by calling the statement a "fact," which it does "not understand" us "to dispute." The course of the Free Soilers is a sufficient answer to all such charges.

No sir, the *Sentinel* did not "endorse the charge." We simply said, that we did not understand the *Free Democrat* to dispute the fact stated. As to the subsequent "course of the Free Soilers" disproving the charge, it does nothing of the sort. We take it that they were ready to vote for a Whig Speaker, if the Whigs would vote for a Free Soil Clerk. And this is what the Telegraph meant when it spoke of their being "in market." The *Free Democrat* concludes thus:

The *Sentinel* suggests, that our failure to obtain the Chief Clerkship has caused our dissatisfaction with the organization of the Assembly. We reply, 1st, that we were not a candidate for the Chief Clerkship; and, 2d, that if the Whigs are satisfied with the organization of the Assembly, we are.

As to the first averment, we refer it, without comment, to the members of the Assembly.—Touching the second, if our neighbor is so entirely "satisfied," pray what is he scolding about?

WISCONSIN'S WELCOME TO KOSSUTH.—The following is the joint resolution of welcome to KOSSUTH, adopted, with almost entire unanimity, by both branches of our Legislature and approved by the Governor. It is, with the single substitution of the Legislature of Wisconsin for the Congress of the U. S., identical with that adopted by the Senate and House of Representatives at Washington, and introduced by Gov. SEWARD, of New York; and expresses, in brief and fitting terms, the cordial welcome which a nation of Freemen extends to one of Freedom's most distinguished Champions:

Resolved by the Assembly and Senate of the State of Wisconsin—

That the Legislature, in the name and on behalf of the State of Wisconsin, give to Louis Kossuth a cordial welcome to the capitol and the country, and that a copy of this Resolution be transmitted to him by the Governor of this State.

ODD FELLOWS' FESTIVAL.—The Odd Fellows of our city give their Annual Festival *to-night.*—As usual, on such occasions, they will open their own magnificent Hall to the public, in addition to Gardiner's Hall. Members of the Order will appear in Regalia, and it is whispered about that those Ladies, wives of Odd Fellows, who have taken the new Degree of Rebekah, will also wear the appropriate emblem. Altogether the Hall will no doubt present a brilliant spectacle, and as every effort has been made to get up an entertainment worthy of the Order and of the occasion, we doubt not that the Festival will be in all respects successful.

TAX RECEIPTS AT MADISON.—The Editor of the Watertown Register, writing from the Capital, to his paper, says:

"From three to four thousand dollars, in specie, are paid in daily. The amount of money to be distributed to the School districts on the first of February next will be in the neighborhood of $75,000. The fact of drawing so much of the circulating medium of the State to the Capital, will have the effect of producing an increased stringency in the money market throughout the State, and until diffused again, will prove a serious hardship."

We find the above paragraph copied into the editorial columns of yesterday's *Commercial.* It must have been *smuggled* in by some mischievous opponent of the *Commercial's* "bran new notions" about political economy. What care we if such a trifle as $75,000 in specie *is* locked up in the Treasury Vaults at Madison? Is'nt money "redundant" here, and is the "specie" good for anything except to ship to London where it is comparatively scarce and worth more than here?

SUPERIOR STEAM ENGINE.—The admirers of well-made Machinery can find something worth looking at in the Eagle Foundry of Messrs. TURTON & SERCOMB. It is a large Steam Engine, of 60 horse power, designed for a Flouring-Mill of four run of stone, now in progress of erection by Mr. HUSTED, in the Brothertown Settlement, Brown County. The engine is of a remarkably neat pattern, and the workmanship upon it can't be beat. Our citizens and visitors from the country are invited to call in at the Eagle Foundry and look at this Engine. It is superfluous to add that TURTON & SERCOMB will execute *all* orders for machinery, &c. entrusted to their care, in first-rate style.

☞ The *Commercial*, which but a short while since, interdicted us from saying a word in behalf of the Whig National Administration, now invites us to take up arms in its defence against the fancied assaults of the Buffalo *Express.* We cannot run a tilt with a whig cotemporary even to oblige the *Commercial*, though we shall always be happy to accommodate our Loco Foco neighbor with a "bating," whenever it stands in need of one.

THE COLD MONDAY.—We observe, from our exchanges, that the intense cold of Monday prevailed all over this State, as well as East and South of us, as far as we have yet heard. At Fort Winebago, the thermometer marked 28 degrees below zero, at sunrise, and at Waupun it marked 29 below. This is a severer degree of cold than "the oldest inhabitant" can remember to have ever before experienced in Wisconsin.

I. O. O. F.—The Grand Lodge of I. O. O. F. for the State of Wisconsin, met in this City on Wednesday evening, and will probably continue in session till to-night. There is a large attendance of Past Grands from the different Lodges of the State; nearly one hundred members having been present yesterday. The reports from the various Districts represent the Order as in a prosperous condition, and standing deservedly high in the public estimation.

U. S. COURT.—In the warmly contested Case of Jno. A. C. Gray et al *vs.* J. C. Dowe, in Replevin, the Jury yesterday morning, brought in a sealed verdict for Plaintiffs. EMMONS & VAN DYKE for Plaintiffs, WALDO & ODY for Defendant.

The case of DANIEL WHITNEY vs. H. S. ANABLE and SAMUEL LAING, was given to the Jury about 5 P. M. yesterday. No verdict yet.

The case of Charles B. Tatham *vs.* Jacob Biebrich, is now on trial. A. R. R. Butler, for the plaintiff, and C. K. Watkins for defendant.

FIRE.—Between 7 and 8 o'clock, last evening, a frame building, near the corner of Huron and Milwaukee Streets, took fire and, with its contents, was pretty much destroyed. The Fire Department were on hand in good season, but not in time to save the building. It was insured for $250.

☞ The *Wisconsin* not only refuses to correct its gross and inexcusable misstatements about "the extreme partizanship" of the Common Council, but will not even let its readers know that they can get copies of the new Charter, without charge, at the *Sentinel* office. Small, but characteristic.

☞ Dr. LADD, Superintendent of Public Instruction, Senators WRIGHT and WAKELY, W. A. BUGH, of the Madison *Statesman*, and J. A. HADLEY, of the Watertown *Chronicle*, are among the Representatives in attendance upon the Grand Lodge I. O. O. F., now in session in our city.

SASH, DOORS AND BLINDS.—Mr. Z. CLAYTON, an old resident of our City and an excellent workman, has his steam factory, for making Sash, Doors and Blinds, in full operation, on the corner of Wisconsin and Marshall Streets (near the Light House) and turns out excellent work.

THE WEATHER.—We had another cold snap, yesterday, the mercury at sunrise making 5° below Zero. It moderated sensibly, however, during the day.

The Superintendents of the Poor.

To Messrs. H. C. BEVERUNG, Ch'n—H. G. POST, Sec'y:

SIRS—Your note, containing resolutions adopted by a meeting on Saturday last, has just come to hand. With the sentiment therein contained with reference to the appointment of a German Superintendent of the poor, I fully concur. I urged the necessity of the matter upon members of the Board, in private conversation as well as public, during the session of the Board, and in the several ballotings I voted for Mr. A. C. Willmans, the efficient German Superintendent of last year, but a majority of the Board saw fit to vote otherwise.

That it would be advisable to appoint a German physician to give medical attendance to the wants of German paupers who cannot speak English, all will agree, and that the Superintendents, who have full power in the case, will make such an appointment, I have no doubt.

The evils complained of by your meeting, as many others, grow out of the adoption of an incorrect system. When the poor were supported under the old town system, no complaints were heard; but while the present county system continues, complaints will not cease. The wants of the poor should be attended to by the Aldermen of, and at the expense of the Ward in which they reside. For they being acquainted with their neighbors and constituents, can best guard against impositions, and most conveniently attend to the wants of their unfortunate neighbors. Farther—each Ward should take care of its own poor, for the reason that it is to a great extent responsible for the pauperism created within its limits. If a Ward adopts a vicious system of finances, and by that means creates paupers, it should maintain them; while if another Ward pursues a just, equitable and politic course, and by that means places its poor in good circumstances, it should enjoy the benefits of that course, and not be burthened with the support of the paupers of another Ward, created by vicious and impolitic measures, over which it has no control.

The people of each Ward constitute a family of which the Aldermen are fathers. If the deportment of the fathers in the discharge of their official duties is correct, frugal and politic, the family will be in a prosperous condition; if vicious, reckless and impolitic, they will become paupers.

The mass of pauperism grows out of, and continues in consequence of the continuance of the execrable order system, adopted by all the Wards of the City. Laborers who work for the City, receive orders for their pay, which are worth only from sixty to ninety cents per dollar—and thus they are defrauded out of from ten to forty per cent of their earnings. The wages of the laborer are barely sufficient for his support, if he receives cash; and consequently, if he has no other resources, he is reduced to from ten to forty per cent below a living point. Fortunate, indeed, is the poor laborer who finds himself in a Ward where he is only ten per cent below par. City Fathers should look to this. They can, by a proper exercise of their power, reduce pauperism to such an extent, that it will be confined to those who are physically, or mentally incapacitated, to take care of themselves under favorable circumstances.

This can never be done under the present County system, for that offers a reward for pauperism.

The new City Charter contains nothing with reference to the support of paupers, and in that particular, as well as others, is objectionable.

The Common Council has no such powers as your meeting seems to suppose. The Legislature is the only body competent to remedy the evils of which you complain, for those evils do not arise so much from the "management" of the system, as from the system itself, of which they are a concomitant part, and can only be remedied by a radical change of the whole system.

Humanity, justice and economy require that each Ward in the City, and each Town in the County, shall take care of its own poor, and that the County have nothing to do with paupers.—The Legislature can change the system at once, and are consequently the body to which application should be made. I have no doubt that if your meeting will re-assemble at an early day, and take the matter vigorously in hand, they can, during the present session of the Legislature, procure the required change; thus in a very short period of time ridding themselves of those "censurable and condemnable" evils of which complaint is made, and which, if not thus disposed of, must remain for at least one year.

If your friends decide to adopt that course, or any other tending to remedy the evils of which they complain, and the many others incident to the expensive and unwise County system, they will meet with the hearty co-operation of

Your humble servant,
JESPER VLIET,
Jan. 20, '52. Chairman of the Board.

For the Sentinel.

MESSRS. EDITORS:—I noticed in the *Sentinel* of yesterday, an article purporting to be the proceedings of a meeting of Germans, adopting resolutions censuring the conduct of our excellent Superintendent of the City poor, JAMES H. ROGERS. I have been a visitor among the poor of the City for years, and have had opportunities of finding out the many fraudulent ways practised to obtain money from the poor fund, and know from personal observation that too *many* are assisted, instead of too few. Letters of recommendation to Mr. Rogers have been given, in order to get rid of importunity, too indiscriminately by some of our City officers, to applicants for relief, and thousands of dollars have been worse than squandered, because it has been given to those who are able to help themselves, and who in consequence are detained here, a curse to the City.

As to appointing a German physician, that would be well enough, but I would like to enquire of the getters up of this meeting, if they know where all the money went to, that was some time since professed to be distributed by a German, among the poor.

There could not be a better Superintendent of the Poor found in the city than our present one, and the only fault that can be found with him is, that he is too kind hearted, and had rather assist *three* unworthy persons, than have *one* worthy one suffer.

Yours respectfully, **

☞ The editor of the *Free Democrat*, under date of Madison December 20, writes as follows:

The action of the Assembly yesterday, in limiting the number of papers to each member to ten dailies, has operated like a wet blanket upon the publishers of the daily papers here. To-day, they have withdrawn their reporters from both houses, and Mr. Watson of the *Sentinel*, Mr. Brown reporter of the *Journal*, and ourself, are the only representatives of the press left.

THE CITY ORDER FORGERIES—ARREST.—A complaint has been made before the Police Justice, against D. Van Deren, for forging and altering city orders, and he was arrested night before last, by under sheriff Page. The examination is set down for Saturday afternoon.—*Commercial*, of yesterday.

☞ We are indebted to several friends in the Legislature for the daily journals of the two houses, and to the Members generally for a very liberal subscription to the Milwaukee *Sentinel.*

☞ The gentleman who, in the editor's absence from his *sanctum* yesterday, borrowed a book from his table, is politely invited to bring it back again.

DEATH OF AN EX-PRESIDENT OF TEXAS.—Galveston dates to the 2d inst., announce the death of Hon. Mr. Burleston formerly President of Texas.

THE WANDERING CRAFT.—Our readers will remember the little sloop "Sun," that made its appearance a few days since, off our harbor, with "not a soul on board." It excited much attention and speculation, but it answered no hailing cry—it sent no boat ashore, but silently bore away.

We learn from a private letter, dated St. Joseph, Michigan, January 14th, that this mysterious craft hove in sight of that place on the morning of the 14th.

Several daring fellows went out upon the ice, and succeeded in boarding her. Her canvass was unfurled, and there was nothing aboard but her rigging.

Having completed their survey, they left the lonely craft to pursue her solitary way.—*Chicago Democrat.*

Extraordinary Organization.

The Richmond *Whig* translates from the Wachter, a German paper published in Baltimore, (the title meaning the "*Waker up*,") the following extraordinary constitution of a society which, it appears, exists in the city of Richmond, Virginia. The Times cannot believe that the agrarian, infidel and abolition doctrines announced in this document are held by any considerable number of the German citizens of Richmond:—

Platform of the Social Democratic Society of Working Men.

Both political parties of our land have proved their incapacity to develope and build up the true democratic principles of the constitution. Their fate is inevitable; already the process of dissolution has commenced.

The party of the future, although at present small in numbers, has already begun to put forward, with settled convictions of success a new political programme, and is about to enter the path of reform, guided by the belief that inaction in the affairs of a State leads to decay and destruction, while activity and zeal produce new formations of life—a guaranty of the welfare of all.

By the co-operation of all those who profess radicalism we will be enabled to establish this new and popular platform, which our party will look upon as the basis of our political movements.

The Working Men's Society in Richmond has therefore resolved to publish the following fundamental principles of reform:

A. *Reform in the laws of the General Government as well as in those of the States.*

We demand, 1. Universal suffrage. 2. The election of all officers by the people. 3. The abolition of the Presidency. 4. The abolition of Senates; so that the Legislature shall consist of only one branch. 5. The right of the people to recall their Representatives (cashier them) at their pleasure. 6. The right of the people to change the constitution when they like. 7. All lawsuits to be conducted without expense. 8. A department of the Government to be set up for the purpose of protecting immigration. 9. A reduced term for acquiring citizenship.

B. *Reform in the foreign relations of the Government.*

1. Abolition of all neutrality. 2. Intervention in favor of every people struggling for liberty.

C. *Reform in what relates to religion.*

1. A more perfect development of the principle of personal freedom and liberty of conscience: consequently—*a.* Abolition of laws for the observance of the Sabbath.—*b.* Abolition of prayers in Congress. *c.* Abolition of oath upon the Bible. *d.* Repeal of all laws enacting a religious test before taking an office.

2. The taxation of church property. 3. A prohibition of incorporations of all church property in the name of ecclesiastics.

D. *Reform in the social conditions.*

1. Abolition of land monopoly. 2. Advalorem taxation of property. 3. Amelioration of the condition of the working class. *a.* By lessening the time of work to eight hours for grown persons, and to five hours for children. *b.* By incorporation of mechanics' associations and protective societies. *c.* By granting a preference to mechanics before all other creditors. *d.* By establishing an asylum for superannuated mechanics without means at the public expense.

4. Education of poor children by the State.—5. Taking possession of the railroads by the State. 6. The promotion of Education—*a.* By the introduction of free schools, with the power of forcing the parents to send their children to school, and prohibition of all clerical influence. *b.* By instruction in the German language. *c.* By establishing a German University.

7. The supporting of the slave emancipation exertions of Cassius M. Clay by Congressional laws. 8. Abolition of the Christian system of punishment, and introduction of the human amelioration system. 9. Abolition of capital punishment.

For the name of the Social Democratic Society.

Milwaukee & Miss. R. R.

The New York *Tribune* of the 8th inst., publishes, in its money article, the following synopsis of the operations of our Rail Road Company thus far:—

It will be seen from our advertising columns that the Milwaukee & Mississippi Rail Road Company have made prompt provision for the payment of their semi-annual interest, which became due the 1st inst.

The Road contemplated to be built by this Company reaches from Milwaukee, on Lake Michigan, to the mouth of the Wisconsin River at its confluence with the Mississippi River, about 200 miles, taking an almost direct course West, passing thro' the heart of the State of Wisconsin, and when completed will be one of the grand highways of the country. Madison, the Capital of the State, is on a direct line midway betwen Lake Michigan and the Mississippi River. Already is there along the line of this Road, as appears from the last Census, a population of near 200,000 inhabitants, whose passage and business will, of necessity, fall upon the Road, saying nothing of the vast business accumulated and accumulating upon the Upper Mississippi River, that will become tributary to a greater or less extent to this Road. The Road was opened as far as the village of Waukesha, twenty and a half miles, on the 25th day of February last. To this point it cost about $210,000. Its net earnings over and above expenses upon this twenty and a half miles, are as follows:—

NET EARNINGS ABOVE EXPENSES.

March,	$719,26	August,	$2,310,00
April,	840,93	September,	2,210,00
May,	1,333,24	October,	2,529,02
June,	1,663,96	November,	2,451,00
July,	2,225,76		
Total			$16,314,17

These figures show that upwards of $2,000 ℔ month of net earnings were realized from the opening of the Road, and should the remaining months of the year show as good earnings, it will appear that a dividend equal to 10 ℔ cent, has been realized upon the cost of the Road to Waukesha.

One very great merit of most of the Western Roads is the cheapness of construction, and the Directors of the Milwaukee and Mississippi Railroad Company appear to have managed the construction of the Road with very sound economy. The estimated cost of the Road from Milwaukee to Whitewater—the first division—a distance of fifty miles, as appears from the Engineer's report, was $12,162 22 ℔ mile, including depots, furniture and right of way, and so far as the experiment has been made, the estimate has been found in the main to be accurate.

The Company have just now added about seventeen miles more to the Road, making in all say thirty-seven miles in operation. At this point it will command the transportation of Wheat and other grains—the great staples of the country—which it could not do when running only twenty miles; so that the earnings of the Road may be expected to be more than proportionably enhanced.

Further, it is understood that the Road is under contract with very responsible parties, to be completed next year to Rock River, an additional distance of thirty miles, at which point it will sweep the whole business of the valley of that river, lying in Wisconsin, already so celebrated for its fertility, and the enterprise and thrift of its population.

OLD WHITEY.—A paragraph has gone the rounds of the papers, to the effect that Gen. Taylors war-horse, "Old Whitey," was present in the prosession in honor of Kossuth, in New-York.—He is represented to have been harnessed to a light wagon. It is a double slander—it slanders "Old Whitey," in placing him where he never was before—to wit: in harness; and it slanders the respected family of Gen. Taylor, in countenancing the idea that they would part with a charger so famous in the annals of our country, and so prominent in the history of Buena Vista. "Old whitey" is now at the residence of Gen Taylor's son, on the coast, a few miles from this city, and is permitted to roam undisturbed over a fine, large pasture, entirely appropriated to his use. He has, too, the best and most comfortable accommodations,—lives, as an old charger who has done the State some service, should live,—proud, contented, fat and happy—honored by all the family of the brave Old Hero—his former master, and by all the neighbors.—*N. O. Delta. Dec. 25.*

☞ George III. was extremely punctual, and expected punctuality from every one. The late Lord H—k—e was the most punctual person who attended on his Majesty. He had an appointment one day with the King at Windsor, at twelve o'clock; on passing through the hall the clock struck twelve, on which his Lordship, in his rage at being half a minute too late, raised his cane and broke the glass of the clock. The King reminded him that he was a little beyond his time, which he excused as well as he could.—At the next audience the King, as he entered the room exclaimed, "H—k—e! H—k—e! how came you to strike the clock?"—"The clock struck first, your majesty," The King laughed heartily at the grave manner in which Lord H. justified himself, the mock solemnity of the answer adding zest to the bon mot.

KOSSUTH AND THE GRAND JURY.—We see it stated, in rather an ambiguous way, in some of the newspapers from abroad, that M. Kossuth has been summoned before the Grand Jury of this District. It is true that he was summoned to testify in certain libel cases then pending, but the summons was almost immediately recalled. In the libel cases referred to, as we learn, the Grand Jury have found three presentments against Henry De Abna—two for libelling Mrs. Tochmann, late Mdle, Jagello, and one for libelling her husband, Major G. Tochman, of this city.—*National Intelligencer, 6th.*

LATER FROM CALIFORNIA.

Arrival of the Union and El Dorado, with $1,500,000 in Gold.

New York, Jan. 15.

Steamer Union, from Chagres, via Jamaica, arrived this morning. She brings one hundred and eighty-six passengers. Nothing new either from Jamaica or California.

The steamer El Dorado, from Chagres, with dates to the 4th inst, arrived at midnight, with California mails to the 16th, and with $1,082,507 on freight and $300,000 in the hands of passengers.

The steamers Panama and Republic had arrived at Panama.

The dates from San Francisco are one day later than our last accounts.

The El Dorado was detained at Chagres two days by the non-arrival of the Panama, which ship was obliged to bear the steamer Republic company from Acapulco to Panama, the Republic being in a crippled state for the last four days

The El Dorado has experienced heavy gales from the northwest, through which she proved herself a first rate sea boat. She left at Chagres the steamer Union, for New York, via Jamaica, to sail next day; also, the U. S. sloop-of-war Albany; Capt. Platt, which arrived on the 2d January, from St. Domingo. She was waiting orders—all well. The El Dorado has two hundred and one passengers. She brings one day's later news from San Francisco; but the papers at hand do not furnish any intelligence of special importance.

All was quiet at Chagres when the Union left, Panama papers of the 2d have been received.—The steamship Republic was one month making the distance from San Francisco to Panama. The British war steamer, Driver, arrived at Panama on the 28th of December, on her way to England.—The Journal estimates that there was 3,000 passengers in that city during the week. The papers contain nothing later from Chili and the southern portion of California.

The Alta California of the 16th December, received by this steamer, gives the following as the estimate of gold by the steamer Panama, to New York, $1,081,756; to London, $149,000, to New Orleans, $36,214; total, $1,267,300.

Three of the persons concerned in shooting Sheriff Buchanan, have been arrested and confined at Maryville.

The Nevada Journal recommends a division of the waters south of Yuba river, so as to cause them to flow through the gold diggings of that great mining town. A plan is proposed for the construction of a solid aqueduct, sufficiently capacious to carry the main body of that stream. It is estimated that the cost of the work will be $3,000,000.

The Sonora Herald is of opinion that the miners generally in the vicinity of Union Creek are doing well. The steamer Constitution was to leave San Francisco on 23d of December for the Sandwich Islands; she is intended as a regular packet between the two contries.

Kingston papers state that a bill for the erection of a lighthouse on Blunt point, near the harbor of Port Royal, has been ordered to be engrossed in the Assembly.

Judge J. M. Jones, of the southern district of California, died at San Jose.

At San Francisco, on the 16th December, in consequence of the cessation of supplies of flour from the Atlantic ports and Valparaiso, holders were putting up prices.

Washington, January 15.

SENATE.—Mr. Clemens presented a joint resolution of the Legislature of Alabama, expressive of its sentiments on the policy of the United States with regard to the affairs of other nations, and urging that the true policy of the United States is to encourage relations of amity with all nations.

Mr. Fish presented a petition from E. K. Collins and associates in relation to Atlantic mail service.

Mr. Clemens introduced a bill allowing the representatives of John Rile, to locate certain lands, which was ordered to a third reading

Mr. Borland introduced a bill granting land to Arkansas, to aid in constructing railroads; also, a bill granting the Hot Springs of Arkansas to that State.

Mr. Mallory resumed his remarks on the subject of flogging in the Navy.

HOUSE.—Mr. Sibley introduced a bill giving to several States the proceeds of certain lands, for the support of the indigent insane.

Mr. Conger asked leave to introduce a joint resolution, declaratory of the laws of nations in reference to the doctrine of non-intervention, and the views of the government and people of the United States relative to the interference of Austria in the affairs of Hungary, but objection was made.

A motion to go into Committee of the whole on the bill explanatory of the Bounty Land act of 1850, was then taken up. Mr. Tuck opposed it as unnecessary. Mr. Dunham moved an amendment, making land warrants assignable under certain rules.

The morning hour having expired the subject was laid aside.

Various bills were introduced by general consent; among them one by Mr. Fowler regulating the mileage of members of Congress, which was referred to the Committee of Mileage.

The bill for establishing a Board to settle claims against the United States was referred to the Judiciary Committee.

Mr. Moore, of Louisiana, introduced a bill making appropriations for the removal of the raft in Red river.

Mr. Mace introduced a bill for amending the Constitution of the United States, making United States Senators elective by the people.

Various matters on the Speaker's table were then disposed of.

The Senate bill appropriating twelve hundred dollars for fitting up rooms for the use of the Library of Congress, was passed.

The House then adjourned.

WASHINGTON, January 14.

Mr. Webster is preparing a response to a recent letter of Hulseman, which was drawn forth by Mr. Webster's speech at the Kossuth dinner; its tenor has not transpired, but it is not impossible that the Austrian Charge may have his passports tendered him

There is something extraordinary going on in the Navy Department; it is actively engaged in ordering vessels to prepare for sea, and collecting supplies and munitions of war. Among other things the Mediterranean squadron is to be strengthened by two additional vessels.

The thermometer this mornig is six degrees above zero. The Potomac is closed,

Terrible Steamboat Explosion and Loss of Life

Grand Gulf, Jan 13.

About 1 o'clock, this morning, the steamboat George Washington, on her way from Cincinnati to New Orleans, when a short distance above this place, exploded, after which she took fire and was entirely consumed. Capt. Irvine was badly scalded and the first Clerk, Carroll, was killed.—Many that were not killed by the explosion, were afterwards burned. Among the missing, were Mr. Carroll, first Clerk, a Mr. James Treat, Phillip Sumner, the first cook, a fireman, six deck hands and six deck passengers, names not known, all supposed to have been burnt with the boat, also the carpenter and a Mr. Kendall, a passenger from Kentucky, was so badly scalded as to cause immediate death after reaching shore.

Those saved and scalded are Capt. Irvin, badly; Mr. Pearce, second clerk, do; Daniel Clemens, engineer, do.; M. Dunn, second mate, will recover; the third engineer, Moore, and a watchman, do.; James Moore, the first mate, uninjured; C. D. Clemens, do.; Castin Wheeler, second Cook, not much injured. The books and papers of the boat were lost. She had two barges in tow loaded with stock and freight, both were burned.

GOVERNOR'S MESSAGE.—We this week lay before our readers, the Message of Gov. Farwell—and being the first WHIG Governor, this document will be looked for with interest by all the well wishers of Wisconsin. The Message is a manly, fearless exposition of the Governor's views of State policy, and National policy, so far as it is connected with the well being of our noble Wisconsin. He handles the bank Question, Internal Improvement and Educational Department, and the financial affairs of the State, like a straight forward business man, and one that knows what he wants. His recommendations are all of a practical character, and made in a spirit of manly concession and independence that will give them weight with the Legislature.—*Racine Commercial Advertiser.*

☞ We are indebted to the Milwaukee Sentinel for an early copy of the Governor's Message, for which and many other like accommodations they have our warmest acknowledgments. —*Ib.*

☞ IN CONSUMPTIVE SYMPTOMS, Procrastination is the thief of time," in an awful sense, as it shortens existence, and hurries the patient from time to eternity.

Thousands are dying whose lives might be saved by the timely use of WISTAR'S BALSAM OF WILD CHERRY. A few weeks, a few days, may make a fatal difference in the progress of CONSUMPTIVE SYMPTOMS.

The chances of success increase greatly with the earliness of treatment. Although in cases, seemingly desperate, Wistar's Balsam has performed cures that are seemingly miraculous, still it is advisable to take the Balsam on the appearance of the first symptoms.

CONSUMPTION, of all diseases, is the one that should receive early treatment. Every hour of delay may make the case more difficult. In the war between Disease and Nature, the sooner we assist Nature, the more certainly will she win the victory. If we wait until Disease has broken the constitution, our aid may come too late for service.

More Evidence in favor of the Oxygenated Bitters.

Dr. GEO. B. GREEN, Windsor, Vt.,

Dear Doctor—I intended before leaving Washington City, last Spring, to say to you in black and white, as I have frequently done, viva voce, how highly I esteemed your "Oxygenated Bitters," and that I have no doubt, but they will act as a certain, speedy, and agreeable cure of Dyspepsia, in any case, it matters not how obstinate. Your bitters acted as a charm with my friends, Hon. A. C. Dodge, M. L. Martin, H. D. Foster and others, as they did with myself.

THE NEW-YORK TRIBUNE,

Daily, Semi-Weekly, and Weekly.

THE year 1852 commences with events of more than usual importance, and it is certain that other events, equally momentous, will mark its entire duration.

The proceedings of Congress, its discussions and action upon the great questions of our Foreign Policy, the Tariff, the extension of our lines of Steamers to the Sandwich Islands, Asia and Africa, the opening of a Railroad to the Pacific States and Territories, &c., will be watched with the deepest interest.

The Presidential Election takes place this year. The movements of both the great parties, the Conventions, the nominations and the canvass, will engage to an unusual degree the attention and the feelings of the country.

The acts and the speeches of the Hungarian Leader and Exile, and the approach and possible outbreak of a mighty convulsion in which all the nations of the European Continent will be involved, either on the side of despotism or of Liberty, will be subjects of constant and eager interest.

The movements preliminary to this great convulsion, the intrigues of Russian diplomacy, the spasms of Austrian Despotism, French Revolutions, the outrages of Italian rulers; and, on this side the Ocean, Mexican Insurrections, California Gold Discoveries, South American Civil Wars, will add to the general sum of important events which will distinguish the year 1852.

All who desire to be promptly, thoroughly and reliably informed on these matters will find their wishes met in THE NEW-YORK TRIBUNE. Its arrangements for procuring early and accurate information are not surpassed either in extent or perfection by those of any Journal in the world, and its readers may be assured that no expense or exertion will be spared to maintain, and even increase, its present completeness and utility as a newspaper.

In addition to the above named features, we shall regularly publish the Letters of BAYARD TAYLOR, one of the Editors of The Tribune, who is now exploring the unknown and mysterious regions of Central Africa, and before his return, will visit the famous Oriental cities of Damascus and Bagdad, and examine the ruins of ancient Nineveh.

☞ Postmasters taking charge of and remitting us the money for a club of twenty will be entitled to a copy of the Weekly gratis.

REMOVAL.

P. W. BADGLEY,

HAS removed to his New Stores, four doors north from his old stand, at **Nos. 103 & 105, E. Water-st.,** where he has on hand a very heavy stock of GROCERIES, and would invite those wishing to purchase goods in his line to give his stock an inspection before purchasing.

It has not only been the aim of the subscriber to sell as low as any other similar establishment in the West, but to convince purchasers that he can and will sell as low as Jobbers of Groceries in New York—and why not? The subscriber has been engaged in the Wholesale Grocery Business in New York for six years prior to opening in this market. His experience and facilities enable him to buy from the same parties the Jobbers of New York buy from. He will hold himself in readiness to duplicate any retail merchant's purchases in New York—adding necessary expenses.

His stock on hand consists in part as follows:

90 hhds Brown Sugars, various grades.
110 bbls Clarified Sugars.
50 bbls Crushed and Ground Sugars.
200 bags Rio, Porto Rico and Java Coffee.
190 half chests Young and Old Hyson, and Imperial Teas.
50 half chests various grades Black Teas.

5 hhds Stewart's Extra Syrup.
50 bb's Nuts—Brazil, Madeira, Almonds and Peanuts.
200 boxes and half boxes Sardines.
150 boxes Raisins. 250 boxes Candles
20 boxes Sperm Candles.
150 boxes Castile, Brown, Pale, Toilet and Shaving Soaps.
75 boxes Smoking and Fine Cut Tobacco.
100 boxes Pipes.

LIQUORS.

30 casks Brandies. 5 Pipes Holland Gin.
4 puncheons St. Croix and Jamaica Rum.
50 packages Port, Madeira, Malaga and Sherry Wines
100 bbls Ohio and Buffalo Whiskey.

Pork, Hams, Shoulders, and Lard, of his own curing.

Also agent for the sale of the celebrated Tiger Mill POWDER AND LAMP OILS.

It is the object of the subscriber to have at all times a stock that will attract the attention of cash purchasers.

The subscriber would tender his thanks for the liberal manner he has been patronized for the last six years, and hopes to merit a continuation by strict attention to the interests and wants of his customers. All orders entrusted to him to fill will meet with the same attention as if present.

☞ References inquire of his old customers, who are numerous and easy to be found.

The new Napoleon Code.

The following Code will be given by me to my loving country, and it is my fervent desire that it may tend to the honor and glory of France.

It is decreed—

I—That any person who looks out of a window shall be immediately shot.

II—That any person who refuses to look out of window shall be suspected of high treason.

III—That any person who has blinds to his windows, or letter-boxes to his doors, or ventilators in his walls, or harbors a balcony in front of his house, shall be liable to have that house blown about his ears without a moment's notice.

IV—That any person who has a poker, or tongs or shovel in his possession shall be deemed guilty, without trial, or benefit of court-martial, of concealing fire-arms, and condemned accordingly to be shot for not having surrendered them to the State.

V.—That any person found smoking a cigar in the street, shall for the first offence, be pronounced guilty of supplying the insurgents with fire, and carried instantly to the Champ de Mars, then and there to be shot.

VI.—That any two, or more, or three persons discovered talking together, shall be tried for uttering sedition against the State, and condemned accordingly.

VII.—That any person detected whistling, or coughing, or sneezing, or having, or pretending to have a cold, in the street, shall be taken up, and imprisoned in Vincennes for life, for holding concerted signals with the insurgents, with the view of inducing them to rise.

VIII.—That any person, who upon coming before the portrait of Louis Napoleon, does not take off his hat and shout "*Vive l'Empereur!*" shall run the risk of loosing his head by the hand of the first soldier who is witness to the act of contempt.

IX.—That any person who does not walk with his hands uplifted in the air, with a view of proving he carries no weapons about with him, shall be left to the mercy of Louis Napoleon, and without fail, *fusilladed* accordingly.

X.—That any person who gives a party of *eau sucrée*, without the previous sanction of the police, and sending to the properly constituted authorities a true list of the guests invited, and things provided, shall do so at the risk of having himself and company carried off to Mazas, and imprisoned there at least for life.

XI.—That any person who locks, or bars, or keeps his door shut at night, shall be pulled out of bed, and pronounced guilty of giving refuge to proscrits and traitors against the State.

XII.—That any person who sends, either through the post or private hand, a letter or parcel with a wafer or a seal, shall be held responsible for the seditious act, and tried accordingly for holding secret correspondence, and circulating libels against the Head of the State.

XIII.—That any man, woman or child, who lives at Paris without the permission of the Police, and finding two respectable sureties for his good behavior, will be treated as a felon, who has no right to life, mercy, property or anything, and consequently will meet with very little of either.

XIV.—That any printer, who prints anything—even a bandbill, offering a reward of ten francs for the loss of a *perroquet*, or a dearly beloved *caniche*) without first submitting a proof of such document to the police, shall have his printing presses broken up and his printing establishment razed to the ground.

XV.—That any person going to the theatre without a *permis de police*, shall be suspected of sinister motives, and dealt with according as the pleasure of the commanding officer directs.

XVI.—That any person holding correspondence with, or sending a letter to, any foreign journal, is *ipso facto* amenable to any and all the penalties for high treason, and must not be astonished if he loses his head.

XVII.—That any person holding, much less daring to express an opinion unfavorable to the Emperor, will have to answer for the same with his life.

XVIII.—That any dog found barking in the presence, or within the hearing of the Emperor, will be looked upon as an enemy to the State, and shot accordingly.

XIX.—That any baby found crying under the same circumstances, will be treated, irrespective of sex, with the same inflexible rigor of the law.

XX.—That all other offences, charges, and misdemeanors, not included in the above cases, shall be punished by death.

LOUIS NAPOLEON.
Empereur de tous les Francais.

Given at the Elysee, this second day of December (the anniversary of one of my uncle's battles,) 1851.

Small Codicil to the above code.—The Emperor confides to the *elite* of his beloved army the proper execution (the Emperor can think of no fitter word) of the above laws, which he trusts will tend to the glory and happiness of his dear France.

THE MESSAGE.—We this week give our readers the first whig Message, that Wisconsin has been blessed with. It is a very able document, and should be perused by every individual in the State—it not only reflects honor upon Governor Farwell, but on the State; the people should feel proud of having such men chosen to the highest office in their gift. The Governor says he is bound to no party, sect or clique, he has "no friends to reward, and no enemies to punish," nothing to serve but the people.—*Northern Republic.*

THE PORTAGE CANAL.—We would suggest the propriety of the Legislature appointing a committee to examine the public works in this city, and to report accordingly; it would have a powerful effect, and would in our opinion show who is to blame for the present condition of the Canal—Thus far, all monies expended on this Canal, except the ditching, has been fooled away: and it is high time that some persons should have control of this work who would take some degree of interest in it, beyond the interests of their own pockets.—*Northern Republic.*

Sandusky, Jan. 18.

This morning (Sunday) about one o'clock, a fire broke out in D. Campbell and Son's Fancy Variety Store, and before the flames could be subdued, Wm Hewett's Book Store, Campbell's Store, and a Segar Manufactory were entirely consumed. Loss, $10,000; partially insured.

The Printing Office in Campbell's store had been moved before the fire.

Baltimore Jan. 17.

The New Orleans mail of the 10th is received. The great railroad convention was still in session. Nothing had been done definite, and greater difference of opinion existed among the delegates.

An old couple, named Herring, were shot dead near Augusta, Georgia, and the house robbed by the murderer.

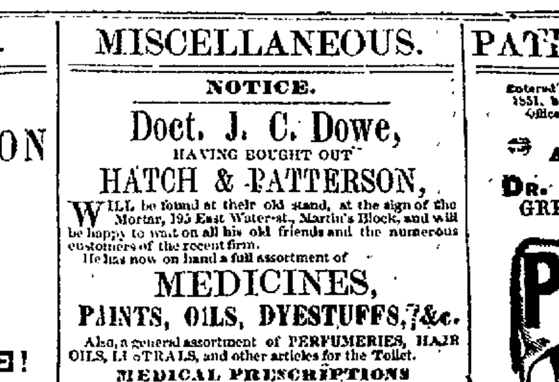
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!



THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analagous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

Sold by all Druggists and Dealers in Medicine.

WISTAR'S

BALSAM OF WILD CHERRY,

THE BEST REMEDY EVER KNOWN

To MAN, for Coughs, Asthma, Colds, Croup, Bronchitis, Influenza, Bleeding of the Lungs, Difficulty of Breathing, Liver Affections, Pain or Weakness of the Breast or Side, First Stages of Consumption, &c.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver, which is produced in our ever varying climate.

WILD CHERRY has long been known to possess important medicinal properties. This fact is familiar to every matron in our land, and physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone so far as to declare that even CONSUMPTION could be cured by that alone. In other hands, again, it was nearly valueless—owing, no doubt, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experiment and long experience.

The extraordinary medicinal powers of these two substances are now, for the first time, combined and embodied in DR WISTAR'S BALSAM OF WILD CHERRY. By a nice chemical process, everything deleterious or useless is rejected, so that what remains is the most extraordinary and truly efficacious remedy for all kinds of pulmonary and liver diseases ever known to man. To convince all unbelievers that our theory is really true, we refer to a few cases of cures performed by this wonderful medicine:

PLEASANT RIDGE, Ham'n Co, O., }
September 27, 1850. }

J. D. Park—Dear Sir:—I take the liberty of advising you of the benefit I have derived from the use of Dr. Wistar's Balsam of Wild Cherry. I was prostrated by that terrible scourge, Consumption, in May last. The attack was truly horrifying to me, for five of our family, (brothers and sisters,) had died of Consumption. I was afflicted with nearly all the worst features of the disease. I had a distressed cough, and expectorated a great deal of blood, hectic fever, severe pains in the side and chest, cold chills, alternating with flushes of heat and copious night sweats.

I was under the care of a skillful physician, from the time I was taken sick until about six weeks since, being then about helpless, and my friends considered my case hopeless, or at least beyond our Physician's skill, and advised the use of Wistar's Balsam of Wild Cherry. Without my knowledge, my father procured it, and commenced administering it to me, and from the first day I commenced taking it, my health improved, and in two weeks from the time I commenced using it, I was able to be out and oversee my business, and labor, which I still continue to do. I have taken four bottles of the medicine, and now consider myself perfectly well. JEREMIAH ISCRIGG.

Another astonishing Cure!

E. Kalb, a highly respectable merchant of Rushville, Fairfield county, Ohio, sent us the following voluntary tribute to

"DR. WISTAR'S BALSAM OF WILD CHERRY."

Rushville, Fairfield Co, O, April 6, 1851.

Mr. J. D. PARK—Dear Sir:—I wish to state to you that my daughter, Amanda, aged sixteen years, had, about a year since, a very severe attack of measles, which reduced her very much, and left her with a racking cough. I employed all of the physicians, within our reach for the purpose of removing her cough, but without success. She appeared to be sinking into a decline, with every symptom of consumption.

I then tried Dr. "Rogers' Liverwort and Tar." But this aggravated her cough, and gave her symptoms of a still more malignant character. I was now most seriously alarmed, and it was with trembling fear that I from day to day, saw the progress of that insatiable disease, consumption. I really despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson, whose daughter, "Sarah Jane," was cured of consumption by "Wistar's Balsam of Wild Cherry;" this created a faint hope that it might help my daughter, and I immediately commenced using it, and it almost instantly gave relief; her health was improved from the first bottle, and by the use of two bottles of "Wistar's Balsam of Wild Cherry," she was restored to perfect health, and she is not at all predisposed to a cough.

I will say to all that are afflicted with any disease tending to consumption, *do not despair*, for Dr. Wistar's Balsam of Wild Cherry will cure you, if you will but try it.

E. KALB.

The genuine Wistar's Balsam of Wild Cherry has a fac simile of the signature of Henry Wistar, M. D. Philadelphia, and "Sanford & Park" on a finely executed steel engraved wrapper. No other can be genuine.

TAPSCOTT & CO'S General Emigration and Foreign Exchange AGENCY.

NEW YORK. W & J. T Tapscott & Co, 86 SOUTH STREET. LIVERPOOL. W Tapscott & Co, AT GEORGE'S BUILDINGS.

ARRANGEMENTS FOR 1851

AS the season for emigration approaches we beg to acquaint our friends and the public with our Arrangements for the year 1851, and would inform them that with an increase of business—for which we are grateful—we are placed in possession of greater facilities for conducting the Emigration and Foreign Exchange Business than any other House in the World and for which—in a great measure—we have to thank a discerning public for their continued patronage.

Since the commencement of last year a large number of magnificent ships have been added to the various popular lines for which we are the Agents, and several others are now in course of construction all of which will be fitted up for passengers in the most superior manner, and commanded by men of long experience.

By the following List of Packets and their dates of sailing—being six regular packets a month to and from Liverpool—four, to and from London—and two to and from Glasgow—persons sending for their friends in those proceeding to the Old Country, will perceive it much to their advantage to make arrangements at our office and as heretofore our business in Liverpool will be under the personal superintendence of our Mr W TAPSCOTT—whose well known care and attention to passengers embarking at our line has won for him his present high reputation among the emigrating public.

It will cook in half the time of any other stove now in use and with half the fuel, consuming over four cords of wood in one year.

The TRIUMPH single oven takes in long wood is an excellent stove—one that has been well tested, and gives general satisfaction.

The PREMIUM is different in construction from any other made in the arrangement of the fire back—acknowledged to be a great improvement.

The UNO PARLOR is adapted to either wood or coal, being decidedly the greatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauty of the open grate. It is beautifully ornamental, highly finished and perfect in every respect—the front above and below the grate being opened or closed with three doors, and so arranged that when open the fire is completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as an ornament.

Troy Fire Insurance Company TROY, WALWORTH COUNTY, WIS. CAPITAL $100,000.

The Directors feel grateful to the public for having thus early manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows:

Whole number of Policies issued,	950
Whole amount of Property insured,	$62[illegible] 00
Whole amount of Cash premium,	[illegible]214 37
Whole amount of losses allowed and paid,	371 27
Balance of Cash Premium on hand,	1843 10

IT is gratifying to the Directors to state to the members of the Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, show that our plan and management meets with the approval of the public.

The Charter and Bye Laws are free from objections, and provide that the risks shall be divided into two distinct departments and the premiums in one shall not be liable for losses in the other. The only risks taken in the Farmers Department are on farm property, detached dwellings, country churches, school houses, tailors, shoemakers, [illegible]. No hazardous risks will be taken in either department, nor more than $2000 in one risk, or in a circle of [illegible] rods.

The company possess all the advantages of the Stock and Mutual plan. Any person insuring may pay [illegible] one-half the regular cash premium in full, without a premium note. Stoves may be added or changed, out buildings erected [illegible] feet from dwelling and such additions and repairs [illegible] do not increase the hazard without [illegible] the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance will take effect on the day the application is made. The Company pays, in case the full amount of damage [illegible] the amount insured and all matters of difference may be left to arbitration in the county where the loss occurs.

The rates charged by this company, though low are based upon the actual results of insuring for the past ten years, and are found to be sufficient, with prudent management to pay all losses and expenses [illegible] dwellings and farm property are a premium note [illegible] per cent, or a cash premium of fifty cents on each $100 for five years.

In [illegible] our safe, cheap and popular plan of Insurance we [illegible] the public to [illegible] following facts with the Washington and Montgomery—

The Washington County Mutual commenced in 1846 by collecting thirty cents on each $100 [illegible] they first discover that this was insufficient to pay losses, and raised to 33 cents and are collecting 51 cents on each $100 [illegible] their report Jan 1 1850, $9000 in [illegible] making their actual debt 1911 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington and their report shows what [illegible] coming to. They reported to the Comptroller Jan 1 1850 that their losses and cash expenses [illegible] exceeded their cash receipts twenty nine thousand dollars, and [illegible] forty four thousand dollars, and some thirty million [illegible] on which they will probably [illegible] making their actual debt [illegible] dollars.

The cash premiums now collected by these two companies [illegible] in future will only pay losses on [illegible] which must be raised by tax. These companies are [illegible] in N. York, and are compelled to [illegible] in the Valley of the Mississippi where they are not so well known for business. [illegible] may publish, as heretofore, their firm belief that no tax will ever be necessary, but the figures are the [illegible] from.

Since the above reports, the Montgomery have voted a tax [illegible] premium notes.

Now we would ask the public candidly, which of these three companies it is to their interest to insure in, the Washington to assume a debt of $191 000, the Montgomery and assume a debt of $134 000, or of the Troy, with an interest cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

STATE FAIR. CRANE'S PATENT SOAP took the First Premium at the State Fair at Janesville, also at the State Fair of the State of New York and at the Great Fair of the American Institute. Of course it did, because it is the BEST SOAP IN USE. If any are still skeptical, let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

"We have used Crane's Patent Soap in our families for the past eight months and pronounce it fully equal to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

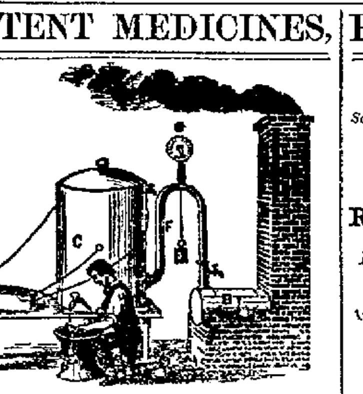
PATENT MEDICINES,



Dr. Trasks Magnetic Ointment, CAN now be obtained in this city of S JOHNSON Jr, and H Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West. The great and increasing popularity of this remedy, is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession from Physicians of the best standing who have prescribed it, and from others who have been healed by it we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed. For inflammatory Rheumatism, Burns, Freezes, Ulcerated sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

The attention of Physicians is respectfully called to a rigid scrutiny of the merits of this article.

We the undersigned Druggists and Merchants of this city, have been acquainted with and sold for 2 or 3 years past an article of Family Medicine known as PERRY DAVIS VEGETABLE PAIN KILLER and we would assure the public that in every instance, so far as we know, it has given the best satisfaction to the purchaser. We can recommend it to the public as an article of Great Merit and Value; indeed, we never knew an article of Medicine become so deservedly popular in so short a time, which is proved by the fact of its extensive sale and constantly increasing demand.

A Word of Caution to the Public! Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer manufactured by White & Co of Buffalo, which is a worthless imitation, and the pamphlets a base forgery which will appear by comparing them with the Genuine. The certificates are copied verbatim. The proprietor of the Genuine Perry Davis Pain Killer will prosecute any person engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public and for the sole object have applied the name Pain Killer or something similar to their own compounds such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c &c all of which have been got up on the reputation of Perry Davis Pain Killer. The public are cautioned against these mixtures.

PAIN Is the warning given of the presence of disease, and the disarrangement of the nervous and muscular system. In order to cure disease and rid the system entirely of its cause our first great desideratum is to stop the pain—strengthen the nervous energy—invigorate healthy action—the functions and secretions of every organ in the system, this we accomplish by the marvellous strength giving, invigorating and powerful pain soothing properties of Radway's Ready Relief. No matter what the cause of pain be—if it arises from nervous prostration, muscular debility, disarrangement of the functions of the liver or secretions of the skin, whether it be rheumatism, neuralgia, sick or nervous headache, nervous irritability, spasmodic affections, cramps, diarrhoea, bowel complaints, chills and fever, whether it originates from internal derangements or external injuries—Radway's Ready Relief, taken internally and applied externally, will speedily and effectually stop the pain and cure its cause.

RHEUMATISM 100,000 cases cured in 1850. The most excruciating pain stopped in two hours. Radway's Ready Relief is the quickest, safest, and most effectual remedy for the cure of Rheumatism in all its forms in use. We state only what we know. It will stop the most torturing pains of this distressing complaint by one application. We have never known it to fail in giving instant relief. In every city, village and town of America, it has cured some of the people of this cruel complaint.—In every case we warrant it to do as stated—it will instantly relieve the sufferer from pain, and speedily cure its cause.

SICK AND NERVOUS HEADACHE 100 000 persons cured in 1850. It will give relief in fifteen minutes. Radway's Ready Relief, taken according to directions, will speedily and effectually cure this complaint. Taken internally and applied externally, it refreshes the senses, cleanses the stomach, stops all irritation in the nerves, and relieves the sufferer from pain in 15 minutes. It is now curing hundreds daily of the sick and nervous headache.

NEURALGIA 10 000 Neuralgia cases cured in 1850. It will stop the most violent pains in fifteen minutes. The cruel and excruciating pangs of pain of this distressing complaint are instantly arrested by Radway's Ready Relief. The happy and invigorating effects its produces on the nervous system, rendering the nerves iron proof, quickly restores the energy and cures the disease. Radway's Ready Relief is the only remedy that has effectually cured Neuralgia in its worst forms.

DIARRHOEA 200 000 persons cured in 1850. Pains stopped in fifteen minutes. Radway's Ready Relief cured more cases of cholera morbus, dysentery, cholic and all bowel complaints, the past year, than any other remedy in use. On the banks of the Mississippi, Missouri, Illinois and Ohio rivers, in New Orleans, St Louis, Cincinnati, Detroit, Chicago, Milwaukee, Galena, and other places where the diarrhoea, cholera and dysentery raged so fearfully, Radway's Ready Relief was used with the best success. It will in 15 minutes stop the most violent cramps and spasms, impart a genial heat throughout the whole system, allay all irritation, stop the painful discharges and relieve the patient from all pain.

CRAMPS AND SPASMS. A teaspoonful of Radway's Ready Relief taken internally and by bathing externally, will in a few minutes stop the most violent Cramps and Spasms. In many cases where the extremities had lost all feeling, where they were cold and numb, the limbs distorted and shrunk, rubbing with Radway's Ready Relief has always brought back the [illegible] action and a quick and healthy circulation of the blood. Whenever you find a person afflicted with Cramps and Spasms, apply Radway's Ready Relief immediately, in 15 or 20 minutes it will relieve the sufferer from all pain.

M. Jackson, AT THE GERMAN MEDICINE STORE, 120 Arch st, Philadelphia.

Their power over the above diseases is not excelled if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.

READ AND BE CONVINCED [From the Boston Bee] The Editor said, Dec 3d "Dr Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety under any circumstances. We are speaking from experience, and to the afflicted we advise their use." SCOTT'S WEEKLY

One of the best literary papers published, said, August 25: "Dr. HOOFLAND'S GERMAN BITTERS manufactured by Dr Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says—"Dr Hoofland's German Bitters we know to be an excellent article fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 21, says—"A Medicine"—We speak knowingly of Dr Hofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all billious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE. They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious. For sale, wholesale and retail at THE GERMAN MEDICINE STORE, No 120 Arch street, one door below Sixth, Philadelphia, and by respectable dealers generally throughout the country and also for sale by S JOHNSON, JR., Jan7 Druggist, Milwaukee, Wisconsin

GREAT DISCOVERY. JOHNSON'S CHEMICAL HAIR INVIGORATOR, *To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually* SCURF OR DANDRUFF. Prepared only by S JOHNSON, 151 E. Water-st FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained free from animal grease or essential oils. It cleans the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so, will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life. Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume and the great facilities it affords in dressing the hair, which when moist with the Invigorator, can be dressed in any required form, so as to preserve its place whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 12m

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a **"Conformateur,"** from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away, as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country. We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head, and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $4.25, surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
